

## Skills in Continuous Transition?

Bringing together human approach and technological changes in automotive ecosystem

September 29 - 30, 2022, Stuttgart, Germany

### What is an **Automotive Skills Alliance (ASA)**?

---

(ASA) is a European - wide stakeholder partnership for collaboration and networking on: (1) re-/upskilling of workers and their training; (2) development of intelligence and fostering dialogue among all relevant partners and stakeholders; and (3) overall Skills Agenda in the Automotive-mobility ecosystem. Launched in November 2020 and established as a legal entity (non-profit organisation) in January 2022.

The full list of partners can be found on the project website:  
[AUTOMOTIVE SKILLS ALLIANCE \(automotive-skills-alliance.eu\)](http://AUTOMOTIVE SKILLS ALLIANCE (automotive-skills-alliance.eu))

### The Conference

---

We are pleased to invite you to join the first conference organised by the Automotive Skills Alliance, which will be held on September 29-30 in Stuttgart.

The event, promoted by the ASA partner Stuttgart Region, together with its Economic Development Corporation (WRS GmbH), will focus on upskilling and reskilling activities and needs in the automotive-mobility ecosystem at European level.

This two-day event will host discussions around the current challenges on the skills agenda, including the views from the various actors involved. Two workshops will be organised to address challenges and discuss possible cooperation on a variety of topics, including the regional implementation, wide-stakeholder cooperation, skills intelligence and life-long learning, among many others.

The conference will provide opportunities for stakeholders to connect with others from industry, academia, educational institutions and regions and to learn and share best practices and experiences from their work on reskilling and upskilling.

[Download the calendar invite](#) to reserve the time on your agenda!
