

# AUTOMOTIVE SKILLS ALLIANCE

## About Us

Large-Scale Partnership for collaboration on the skills agenda in the Mobility-Automotive Ecosystem

## Partnership

Automotive Skills Alliance was created in November 2020 under the Pact for Skills, the first flagship action of the European Skills Agenda, firmly anchored in the principles of the European Pillar of Social Rights. The pact aims to mobilise and incentivise private and public stakeholders to invest and take concrete action for the upskilling and reskilling of people.

## Why ?

The Automotive Skills Alliance (ASA) is focused on the re-skilling and up-skilling of workers in the automotive-mobility ecosystem, developing intelligence and fostering dialogue among all relevant partners and stakeholders in the ecosystem, and supporting the elaboration of specific plans for re-skilling, up-skilling and training of workers in the EU automotive-mobility ecosystem. The ASA supports collaboration and sharing the best practices in order to ensure continuous, pragmatic and sustainable cooperation on the skills agenda in the ecosystem.

## Skills Framework

The Skills Framework is a one stop shop for trainings in Automotive-mobility ecosystem with integrated framework for definition and recognition of job roles and skills / competence concepts using microbadges. The training courses linked and advertised by providers according to coherent structure and mapping exercise – more than 120 courses linked through the platform covering topics in the following areas:

### Skills Framework

More than  
**120**

Training  
Opportunities

### Examples of the Training Areas

- Automotive engineering
- Quality
- Functional safety
- Cybersecurity
- Electric Powertrain
- Sustainability
- Innovation management
- Batteries for electromobility
- Electronics packaging
- Robotics

## Audience:

- **Students, workers** – training courses, to receive digital badges (micro-credentials)
- **Companies** - employees training and progress tracking
- **Training providers and industry** – for better visibility through ASA network and to issue digital badges to successful trainees
- **Experts** - those who want to define skills and job role definitions according to current trends and needs

Virtual and  
Onsite Training

## Learning Platform

Online platform containing more than 30 online courses now and growing. The first set of training courses were developed by the ERASMUS+ co-funded project DRIVES.

### Learning Platform

More than  
**30**

Online Courses

### Main Highlights

- Free of charge
- Learning at your own pace
- Open for any training providers to host their courses
- Platform is connected to the ASA Skills Framework and issues digital badges (micro-credentials)

## Access to the Platforms

- **Skills Framework** - go to [skills-framework.eu](https://skills-framework.eu), for more features, such as learning account or course creation, register as an user or training provider on the website.
- **ASA Learning Platform** - access link [learn.skills-framework.eu](https://learn.skills-framework.eu)
