

AUTOMOTIVE SKILLS ALLIANCE

About Us

Large-Scale Partnership for collaboration on the skills agenda in the Mobility-Automotive Ecosystem

Partnership

Automotive Skills Alliance was created in November 2020 under the Pact for Skills, the first flagship action of the European Skills Agenda, firmly anchored in the principles of the European Pillar of Social Rights. The pact aims to mobilise and incentivise private and public stakeholders to invest and take concrete action for the upskilling and reskilling of people.

Why ?

The Automotive Skills Alliance (ASA) is focused on the re-skilling and up-skilling of workers in the automotive-mobility ecosystem, developing intelligence and fostering dialogue among all relevant partners and stakeholders in the ecosystem, and supporting the elaboration of specific plans for re-skilling, up-skilling and training of workers in the EU automotive-mobility ecosystem. The ASA supports collaboration and sharing the best practices in order to ensure continuous, pragmatic and sustainable cooperation on the skills agenda in the ecosystem.

Objectives

Collaboration in the skills partnership for automotive - mobility ecosystem

- Support collaboration on regional and European level
- Initiate new projects
- Mainstream existing projects and initiatives
- Execute up- / re-skilling activities

Updated skills intelligence
